

Conren from *VINCI*

I. About Conren

Conren Ltd is a part of VINCI PLC which is a global green player in concessions and construction.

Established in 1971, Conren Limited is a specialist manufacturer and installer of resin coatings, screeds, anti-slip systems, waterproofing compounds, safety play surfacing and high friction anti-skid for roads. Their reputation has been built on quality of both product and service and they have the expertise necessary to make surfacing project a success.

Conren manufactures and supplies a diverse range of construction chemical products for building waterproofing, highway maintenance and repair. In addition, they formulate and install a wide range of bespoke epoxy and polyurethane based industrial flooring and performance coatings.

One of Conren's main products is Rooftex. Rooftex is the ultimate in high performance waterproofing membranes for a diverse range of construction applications. It's a highly flexible, single component cold applied liquid formulation; based on moisture curing polyurethane technology.

By manufacturing all their products, Conren gain highly developed performance. Their technical knowledge, backed by their practical experience, provides the clients with a comprehensive service.
